The mobile non-invasive solution for liver disease management, ideal for multi-site configuration
**What makes FibroScan® unique?**

**Fast**
A painless exam performed in less than 10 minutes to provide immediate results at the point-of-care.

**Intuitive**
Can be performed by any trained operator (physician, nurse).

**Best in Class**
The non-invasive gold standard solution validated by 2,400+ peer-reviewed publications and 60+ international guidelines.

**Reliable**
Standardized examination with exceptional precision and reproducibility that can be utilized in 99% of patients.

**Original**
Equipped with patented technology and proprietary algorithms to deliver consistently accurate results.

**When evidence matters and consistency counts**
- Pioneer in the field of liver elastography
- FibroScan® produces biomarkers that can assess and monitor patients over time
- FibroScan® uses uniform algorithms that minimize inter-operator variability and allows them to cross-system comparability
- 6,500+ FibroScan® installed worldwide enabling millions of liver examinations
- Winner of the Red Dot Design Award (FibroScan® 430 Mini+ model)

---

**Powered by**

**LSM** by VCTE™
Liver Fibrosis
LSM by VCTE™ is unique, patented and validated for liver fibrosis assessment.

- It is the standard for non-invasive evaluation of liver stiffness.
- 2,250 peer-reviewed publications support the use of LSM by VCTE™.

**CAP**™**
Liver Steatosis
CAP™ is unique, patented and validated for liver steatosis assessment.

- 330 international and peer-reviewed articles support the use of CAP™.

---

**Design features**

- **12.1 inches touch screen**
- **2 probe connectors to easily switch between the M+ and XL+ probe during the examination**
- **Light and easy to handle (5 kg)**
- **Battery-powered device**
- **Provided with airplane compatible transport suitcase**
